

1. KLECARD – Thermal Card Printing

Order No	Product
806 000	Klecard Thermal Card Printer

The marking process has never been so effortless. Printing dozens of labels and tags just in **seconds** will give you an opportunity to **complete** your projects **faster** than what you plan. Klecard is the new marking solution based on the thermal transfer print technology, which is alcohol-proof, smudge-proof and

waterproof with no drying time. Klecard is so fast that you can print any kind of label card in **less than 10 seconds** with a huge thermal resistance level according to international standards. It is ideal for high volume applications with low-cost printing per card with a resolution of **300 x 600 dpi**.

Terminal blocks, cables, panel components, buttons and many more products can be marked with our Klecard Printer thanks to our marking software Klemark-Pro.

1.1 Features

- Ribbon saving algorithm; ensures the optimal ribbon usage, lowering printing cost and maximizing efficiency.
- Built-in printhead integrity check; which automatically tests any printhead single element and ensures high-quality texts, symbols, barcodes and images.
- Perfect printing mode; which allows you to print different media types with the best settings of the printer (speed rate, printing intensity and ribbon control).
- Automatic temperature sensing; which controls the status of the printhead to adjust it at the best conditions depending on the operating environment climate.

- Sensing control; Klecard has three sensors to manage ribbon, plates and media. The machine will start printing only when the plate, the ribbon and media are placed on the machine.

WARNING: The printhead working temperature condition is between +15/+35°C range.

1.1.1 Package Contents

- | | |
|-----------------------------------|---------------------------------------|
| ⊕ 1 KleCard Printer | ⊕ 1 USB Cable |
| ⊕ 1 Power Supply | ⊕ 1 Plate for Terminal Blocks Markers |
| ⊕ 1 Power Cable (Schuko Standard) | ⊕ 1 Plate for Flat Media |
